The season for insuring gins is about here,
and I am better equipped than ever to handle
this class of business. My companies' rates are
as reasonable as the hazard will admit and are
as low as any reliable company.

TERRIBLE IS TYPHOON

Loss of Life Much Greater Than at
First Thought.

BODIES UPON BEACH.

Among Them Are Some Corpses of
Americans, but They Are in a
Condition Rendering Im-
possible Identification.

Manila, Oct. 3.—The estimated loss
in the hemp growing districts from the
ravages of the recent typhoon is \$5,-
000,000 in gold. Hemp warehouses
ready for shipment were also a total
loss. Plantations were impaired to
such an extent that it will take a year
to get them in condition again.

Reports now coming in from the
south indicate greater loss life and
property than at first estimated.

On Ticao Island the beach is strewn
with dead bodies. Among them are
those of some Americans in such con-
dition as to be unrecognizable.

SIX CREMATED.

Two Women and Four Children Perish
in Their Cabin Home.

Edington, W. Va., Oct. 3.—Six per-
sons—two women and four children—
were burned to death in their cabin
home Monday night. The husbands of
the women escaped. Those burned
were Mrs. J. Alho and three children
and Mrs. Joseph Cordella and one
child. Their charred bodies were
found in the smoking ruins.

HOLDUP PARTICULARS.

Two Boys Captured and Three Men of
the Gang Escaped.

Portland, Ore., Oct. 3.—Particulars
of the holdup of the Great Northern
eastbound train leaving Seattle Mon-
day night state it was stopped about
five miles from Ballard and the bag-
gage and express cars dynamited.
Three men are known to have been the
ring leaders. Two boys, says a special
to the Oregonian, who got on the blind
baggage at Seattle, as soon as the hold-
up began entered the coaches and pro-
ceeded to demand valuables and cash
from the passengers. They were cap-
tured. The boys say two of the men
were on the blind baggage when they
got on and the third did so at Bal-
lard. All had on rain coats and
slouch hats. Manager Wasing of the
Great Northern Express company said
he did not know the amount of cash
in the safe, but it was small.

After securing the contents of the
safe the three men started off in an
easterly direction. It is believed other
members of the gang were ahead of the
holdup and the robbers joined them.
The train was flagged near the brick
yard and as the engineer slowed up
two men with rain coats climbed over
the tender and presented revolvers to
his head. When the train stopped the
baggage and express car was uncou-
pled by one of the robbers and the en-
gineer instructed to pull ahead, which
he did several hundred yards, when he
was again commanded to stop. Two of
the robbers then jumped off making
the engineer and fireman do the same,
and all marched to the baggage car
door. The messenger was commanded
to open the door, and refusing an extra
heavy charge of dynamite was placed
against it and exploded. The explo-
sion tore the car almost to pieces. The
safe was then dynamited.

The train was delayed two hours
and a half and then pulled into Ed-
monds, making a brief report before
proceeding to Everett. The two boys
say they never met the men until they
got on the train and are in no way
connected with their work. The idea
to hold up the passengers occurred to
them after the explosion.

Is Improved.

Des Moines, Ia., Oct. 3.—First Base-
man Bateman of the Milwaukee base-
ball team, who was stabbed Monday
night by Catcher Dexter of the Des
Moines team, was somewhat improved
at Mercy hospital Tuesday. Unless
poisoning sets in the Texan will recov-
er. His wound otherwise is not fatal,
so his physicians stated.

Floated Without Help.

Tokio, Oct. 3.—According to late in-
formation received the American cruiser
Cincinnati was floated without as-
sistance after being ground for seven
hours. She has been reported passing
Shimonoseki bound for Shanghai.

Berlin, Oct. 3.—The strike of electri-
cal workers has extended to two more
factories. The total number of men
out is 38,000. No disturbances have
occurred. Enough men have been ob-

keep two-thirds of the street cars
going.

Shot a Preacher.

Shreveport, Oct. 3.—Some one shot
at J. B. Green, a negro preacher, as he
sat on his porch. Three shots were
fired, one bullet grazing his head.

TEXAS BOY HAZED.

He is Said to Have Been Subjected to
Outrageous Treatment.

San Angelo, Tex., Oct. 3.—Frank, the
seventeen-year-old son of T. P. Bell,
of this city, is in a serious condition in
the hospital of Columbia university, at
Columbia, Mo. He has been uncon-
scious for several days from the effects
of hazing by older students. The boy's
father received a telegram that his son
was very ill with high fever and to
come at once. Mrs. Bell has received a
telegram here from her husband, stat-
ing that hazing was the cause of the
boy's illness. The boy has recognized
his father and asked, "Where's mam-
ma?" and went back into delirium. The
enraged father, a capitalist of this city,
is determined to find the boys who
hazed his son, and will do his utmost
to have them severely punished by law.
The school faculty is aiding Mr. Bell.
The boy's mother is heartbroken over
the affair. The nature of the boy's in-
juries is not known here, but the haz-
ing must have been extremely severe,
as the boy is a big, stout fellow. The
affair is causing much criticism here,
as Frank is popular.

WAS SUCCESSFUL.

Superintendent Worsham is Operated
on For Appendicitis.

Austin, Oct. 3.—Governor Lanham
received a telegram from Mrs. B. M.
Worsham at New York stating that
her husband, superintendent of the
state insane asylum at Austin, had
been successfully operated on for ap-
pendicitis.

Rumors were current here Tuesday
that Monk Gibson was in jail at Edna
and that the fact was being concealed
to keep a mob from getting him. The
adjutant general shipped a quantity of
arms and ammunition to Edna for use
of troops if required.

Trustees of deaf and dumb insti-
tute set Wednesday, Oct. 4, as the
date for them to meet here and elect
a successor to Superintendent McNulty,
whose resignation was handed to the
governor some days ago.

Oil Mill Burns.

Bartlett, Tex., Oct. 3.—The oil mill
at this place was destroyed by fire at
an early hour Tuesday morning.

ANOTHER'S TOOL.

Leonard's Sister Says Brother Was
Trying to Protect Man and Woman.

New York, Oct. 3.—Miss Katherine
Leonard, sister of Harry Leonard, the
young man who confessed to the theft
of more than \$350,000 worth of securi-
ties from the National City bank, de-
clares that her brother was the victim
of another man and that he was trying
to protect a man and a woman. Miss
Leonard declared she had given the
woman's name to the police; that she
believed the unrestored portion of the
securities was placed in the safe de-
posit vault by the woman. Miss Leon-
ard said: "I don't know the name of
the man who has used Harry as his
tool, but I do know the woman."

Miss Leonard denied the police story
that part of the securities was found
in the Leonard home. Lawyer Abra-
ham Levy has been retained to defend
Leonard.

The trouble arose from an attempt on

WEDNESDAY, OCTOBER 4.

Did you see Topperwein, the world's champion rifle shot, at the Central Texas Fair two years ago? He will be there again this year Oct. 17 to 20.

Every farmer and all the members of his family need a vacation once a year. The Central Texas Fair at Bryan, Oct. 17 to 20 comes just at the right time for an ideal holiday. The crops will be gathered and every body can spare the time. Go and take the whole family and have a few days of rest and real pleasure.

Capt. Parker and a corps of government engineers have been at work for several days making surveys and outlining plans and probable cost of a lock and dam to be put in the Brazos river at Falls. It is thought to be an assured fact that the lock and dam system will be adopted at this point. —Navasota Examiner.

An exchange speaks of a man who always paid for his paper a year in advance. As a reward he was never sick in his life and never had a corn on his toes, or toothache; his potatoes never rot; the frost never kills his pears; his babies never cry at night his wife, never scolds, and he has succeeded in serving three terms on the school board without being criticised.

Bob Seay of Dallas complains that Bob Johns of Beaumont, formerly of Georgetown, has not toated fair with him by running for judge of the court of criminal appeals after promising not to oppose him. That's a small matter figuring for general results, as it won't be long before your Uncle John Henderson will have both their political pelts hanging on his back fence to dry. Judge Henderson is a dreadfully stiff proposition in Texas politics and generally wins out whether the other fellows double team on him or try the single shot. —Cuero Star.

Patrick's Counsel Presents Remarkable Brief to Appeal Court.

Albany, Oct. 3.—The case of Albert T. Patrick, who since March 26, 1902, has been under conviction for the murder of the aged millionaire, William Marsh Rice, in New York City in 1900, came again before the court of appeals Monday in an aspect as remarkable as any of the previous phases of this case, which throughout has been one of the most extraordinary in the criminal history of this state.

Former Senator David B. Hill, in his brief, pointed out that a son of Judge Gray of the court of appeals was an assistant district attorney of New York and that this fact should disqualify Judge Gray.

In his reply, District Attorney Jerome asserted that the "suggestion that Judge Gray had violated proprieties is as contemptible as it is impudent." Judge Gray wrote the opinion against Patrick.

GOVERNMENT FIGURES.

First of Series Which Will Be Issued Regularly Hereafter.

Washington, Oct. 3.—The census bureau has issued a bulletin showing the quantity of cotton ginned from the growth of 1905 to Sept. 25 to be 2,358,031 bales.

These figures were compiled from telegraphic reports of special agents of the bureau, who have canvassed the ginneries of the various states and territories, and the report is one of a series which will be issued regularly hereafter until the completion of the ginning of the crop of 1905. The report is earlier than any made in 1904, rendering comparison impossible. Alabama, 330,308; Arkansas, 9,352; Florida, 18,864; Georgia, 600,212; Indian Territory, 14,695; Louisiana, 44,794; Mississippi, 98,617; Missouri, 2,425; North Carolina, 121,243; Oklahoma, 8,825; South Carolina, 329,889; Tennessee, 3,255; Texas, 777,446; Virginia, 293.

INVESTIGATION ON.

Ten Accountants Looking Over Books of New York Life Insurance Co.

New York, Oct. 3.—Ten accountants are looking over the books on behalf of Tennessee, Wisconsin, Minnesota, Kentucky and Nebraska, of the New York Life Insurance company. Examination will occupy two months.

District Attorney Jerome announced in court that he would make public next Thursday his decision in regard to the necessity for an extraordinary grand jury to consider Equitable Life Assurance society matters.

Must Remove Two.

Lincoln, Neb., Oct. 3.—The state department of insurance was today asked by Clarence H. Venner, ex-president of the American Water company, to inform the New York Life Insurance company that it could no longer transact business in this state until President McCall and Vice President Perkins have been removed. Venner is a New York Life Insurance policy holder. He has written to McCall demanding that he resign.

The Little Details

SCHLOSS BROS. & CO.
Fine Clothes Makers
BALTIMORE NEW YORK

TEN yards of cloth and a mile of thread isn't the whole story of a good suit—not by several thousand stitches.

It takes tailoring brains, in plenty and mighty clever craftsmanship to make clothes in the right way—the SCHLOSS way.

Further than this, the looks and life of the suit depend more on the *little* details than you could imagine. For instance, simply the placing of the buttons and the shape of the lapel have everything to do with the final appearance of a coat, while such a trifle as the proper moulding of a curve makes all the difference between a beautiful garment and a mealsack.

If you could take an X-Ray glance at the interior of a Schloss coat you'd find the same careful attention to details as you see outside. Linings, stays and paddings—the framework of the structure—are made to wear, not merely to sell.

The result of all this care is a finished garment that looks and *is* extraordinarily good. It fits that way too, and wears that way as a matter of course. An occasional pressing makes it keep that "new look" indefinitely.

We handle the Schloss line because we know there's none better and never found any as good. We have all the new styles and shapes, of course, in the most desirable colors and patterns.

Some of our Suits and Top Coats cost \$12; others \$15 and \$20.

One Week's Use of Hyomei Did More Than Six Months' Treatment by Specialists.

The popularity and increase in the sales of Hyomei are unique in the annals of medicine. Such astonishing cures have been made by this remedy that the proprietors have authorized E. J. Jenkins to sell every package of Hyomei under an absolute guarantee that it will cure catarrh. If it does not, the purchaser can have his money refunded by E. J. Jenkins.

Hyomei is no ordinary remedy. It is the only method of treatment that send by direct inhalation to the most remote part of the air passages, a balsamic air that destroys all catarrhal germs in the breathing organs, enriches and purifies the blood with additional ozone, and makes a permanent and complete cure of catarrh.

The complete Hyomei outfit costs but \$1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper, and a bottle of Hyomei. The inhaler lasts a life-time, and if one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows Nature in her methods of treating diseases of the respiratory organs.

Breathe through the inhaler for a few minutes four times a day, and your catarrh is cured. That's all. If not cured, E. J. Jenkins will refund your money.

BATEMAN STABBED.

Well Known Texas Baseball Player Injured by Catcher Dexter.

Des Moines, Ia., Oct. 3.—Charles Dexter, catcher of the Des Moines Western League ball team, while intoxicated Monday evening, stabbed and probably fatally wounded first baseman, H. Q. Bateman, of the Milwaukee American association team, which had been playing a series of exhibition games here.

Dexter, Bateman and several other players of Des Moines and Milwaukee teams, were making the rounds of the city in a cab. Dexter and Bateman quarrelled over paying for the cab. Bateman is alleged to have called Dexter a vile name, whereupon Dexter drew a knife and slashed Bateman across the breast, the blade cutting into the lung.

Dexter is widely known as a ball player and was one of the youngest players to enter the National league, being signed with Baltimore at the age of sixteen years. Bateman lives at Melissa, Collin county, Texas.

DEPARTS FOR MEXICO

John Alexander Dowie Leaves El Paso on Monday.

HAS NOT PARALYZED

Head of Christian Catholic Church Says Products of Zion Paradise Plantation Will Be Shipped Abroad.

El Paso, Oct. 3.—John Alexander Dowie, self-styled prophet of the Lord and head of the Christian Catholic Apostolic church of his own foundation, left here Monday enroute to his Zion Paradise plantation, formerly the Gonzalez ranch, near Tampico. Dowie has been confined to his car since his arrival and has not been seen by a soul. While admitting that the "general overseer is not very well," the members of his staff deny that he has been stricken with paralysis.

In a signed statement he said that the Mexican Central railway runs through their property. "God has sent a leader who has been found equal to every emergency, and he will build up a great country for God. We have rail connection to the port of Tampico, and

JOHN ALEXANDER DOWIE.

Zion-Port from where our shipping will be done, is to be founded on the Tamesin river. We will operate our own steamship lines to New York and Europe, and it is our plan for the organization to market all its own products as Zion products, so that they may be known the world over for their worth. We will market all the stuff raised and charge the planters a small commission for handling the products. We will have expert instructors to supervise the planting until our people acquire accurate knowledge of how to grow the various articles. The first thing to be done is the erection of tabernacles for worship. Then we will build schools and then other houses as they are needed. The general overseer promises to spend half his time with the people of Mexico. We will build and conduct manual labor schools, universities, etc. The lowest temperature is 50 and the highest 90. Satisfactory arrangements have been made with the Mexican government for shipping in all our effects free of duty. Every ruler in Mexico has confidence in the general overseer and our work. We expect to locate the first Zion City early next year."

CONDITION OF COTTON.

Twenty-Nine Per Cent Less Ginned and Practically No Top Crop.

Dallas, Oct. 3.—The cotton report of the National Ginners' association, made public Monday, is as follows:

Texas has ginned 46 per cent less cotton than last year at this time; there is no top crop except in the Red river belt, and not very good there. The average price paid for seed is \$10 per ton.

Mississippi has ginned 40 per cent less than last year. Crop conditions are 33 per cent worse; no top crop; seed, \$13.

Alabama has ginned 45 per cent less; condition 32 per cent worse; no top crop; seed, \$12.

Arkansas has ginned 91 per cent less; condition, 41 per cent worse; light top crop; seed, \$12.

Indian Territory has ginned 80 per cent less; condition, 31 per cent worse; seed, \$10.

Oklahoma has ginned 63 per cent less; condition, 26 per cent worse; no top crop; seed, \$10.25.

South Carolina has ginned 49 per cent more; conditions, 32 per cent worse; no top crop; seed, \$13.50.

North Carolina has ginned the same as last year; condition, 34 per cent worse; no top crop; seed, \$14.50.

Virginia is not ginning; condition, 25 per cent worse.

Missouri is not ginning; condition, 25 per cent worse.

Tennessee has ginned 53 per cent less; condition, 40 per cent worse; some top crop; seed, \$11.

Georgia has ginned 71 per cent more; condition, 28 per cent worse; no top crop; seed, \$13.25.

Louisiana has ginned 50 per cent less; condition, 40 per cent worse; no top crop; seed, \$10.

Reports indicate that ginning is from 75 to 90 per cent over in the southern part of the cotton belt, and there will have to be a late frost to make any top crop at all.

Many gins are idle in some sections, due to short and late crops.

Summarized, the above shows that 29 per cent less cotton has been ginned to this date than at the same time last year. The condition of the crop is 34.16 short of last year and there is practically no top crop.
